An Exchange in its simplest form is a network of practitioners working together to learn from each other's expertise.

A significant CPD opportunity for your staff.

Key outcomes

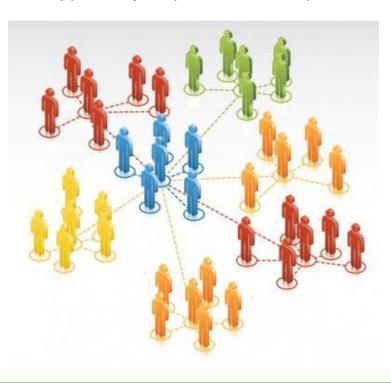

The GM VET Professional Exchange will:

Support providers to be better equipped to adapt to the reform of **Apprenticeships & Technical Training** – continuously improving quality and outcomes for learners.

We have identified 6 cross-cutting themes, however there is an opportunity for providers to shape these.

Emerging themes

- 1. Effective Employer Involvement
- 2. Managing Learner Progress
- 3. English
- 4. Maths
- 5. Equality and Diversity
- 6. Sector Group(s) 1st one Digital

This represents a long-term commitment by the Education and Training Foundation to invest in the Greater Manchester area and we believe the benefits to individual participants will be significant.

We are seeking to work with 25 Apprenticeship and Study Programme/Technical Routeways providers

"The experience has been brilliant, particularly the opportunity to learn from colleagues/providers, sharing with others etc".

"It was excellent, I came away with so many ideas. Thank you! Really nice to share in a safe and comfortable environment".
