

A FORCE FOR EDUCATION

We are delighted to announce the launch of a new campaign to support FE recruitment

The new campaign to support FE recruitment & staffing

To support our members with their staffing & recruitment needs, we are launching a campaign with the armed forces & Career Transition Partnership to promote opportunities across FE and how forces personnel could transition into these roles.

The campaign is a 2 stage approach, starting with an article I have written for the CTP newsletter which will be issued in May to further explore the transferable skills and an introduction to some of the roles that forces personnel may be able to support.

The 2nd part of the campaign involves an FE Insight event in partnership with the CTP on 21st June 11.30 - 1pm (online). This event will be an opportunity to further showcase the FE sector as a great sector to work in, the types of roles available, how to apply for roles & support with understanding the sector and how transferrable the skills are.

We are keen to showcase the sectors opportunities as well as the benefits of working in FE and are being joined by a number of our members to discuss their live vacancies and provide current examples of ex-forces personnel who have transitioned into FE and are still here teaching, leading, coaching and changing lives!

To find out more, or to share your current vacancies with us to promote please get in touch - info@wylp.org.uk Ref: **A Force for Education**
