THE
AI-POWERED
CAREER
PLANNING
PLATFORM

About careerspro

Far more than a career quiz, our AI-powered platform identifies learners' top career qualities, empowering users to choose careers that align with them.

Users can explore careers that they have a strong skills match with, as well as careers that use their existing qualifications. They'll get information on what careers are future-proof, and what their salaries are.

careerspro gives them all the facts, so they can make well-informed decisions.

Discover Future Careers

Identify Transferable Skills

Personalised Career Report

Taking your careers advice and guidance to the next level

We use comparative judgement to discover what is most important to people in their careers. If users already have an idea of a career, they can browse our database of over 500 careers and explore what qualifications they'll need, what the local labour market looks like, and what skills they already have that match that career.

Building a CV has never been easier! **careerspro** identifies transferable skills and provides a personalised career report for each user, meaning they can tailor their CV with the rich information from **careerspro**.

Use the power of software to help meet the Gatsby Benchmarks

careerspro is the perfect solution to support schools, local authorities, colleges and independent training providers. This intuitive, easy to use platform can better help you to support your students.

The user journey...

Choose Between...

Financial Risk Analyst
Financial risk analysts identify and analyse the areas of potential risk threatening the assets, earning capacity or success of organisations.

OR

Painter & Decorator
Painters and decorators prepare and apply paint, wallpaper and finishes to different surfaces.

Step 1

Discover what's important to them in a career **careerspro** collects data on previous work experience, combined with a comparative judgement tool that identifies top career qualities. They decide whether they want a small career transition or a total change of direction.

95% SKILLS MATCH

Electrical engineer
£19,000-£60,000

#PHYSICAL #IMAGINATIVE #OFFICE-WORK
#AFFECTED BY COVID #HIGH DEMAND

This is a short description of the job to spark intrigue and display relevance to visitors.

Your personalised pathway into this career:

Time	Cost	Funding
6 years	£20,000	Available

Explore

Step 2

Refine their career ideas

Users explore careers they have a strong skills match with, those that use their qualifications, careers which are future-proof and what their salaries are. We'll give them all the facts, so they can make well-informed decisions.

COMPLETED ✓

Degree in any subject

Gain Certificate in Investment Management (IMC)
