

MEMBER SPOTLIGHT

WHO ARE SMART WORKS GREATER MANCHESTER?

Smart Works Greater Manchester support unemployed women across all 10 local authorities in Greater Manchester. Whether they are recently unemployed, returning to work after a career break, or seeking their first job, the Smart Works team is there to guide and empower them on their employment journey.

At the heart of Smart Works is their Interview Dressing and Preparation service, designed to help clients feel confident and look their best for a crucial job interview. The service includes a 60-minute styling appointment, followed by a 60-minute personalised interview preparation session, all completely free of charge.

Appointments can be attended in person at their Manchester City Centre or Stockport Centre, or online, with clothing delivered directly to their clients.

ASK TO THE NETWORK

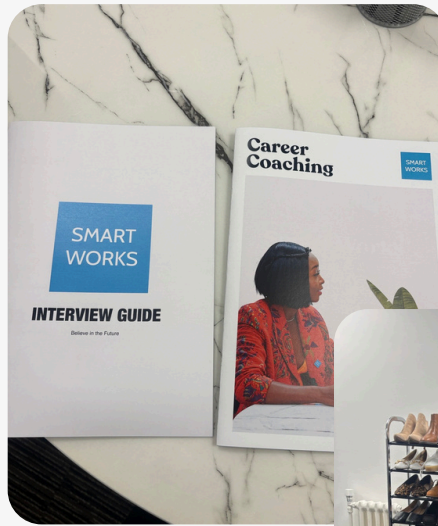

Smart Works Greater Manchester is eager to expand its reach across the region. They are looking to partner with colleges, training providers, and community organisations to ensure that as many women as possible are aware of, and able to access, this fantastic, free-of-charge service.

Additionally, they are always seeking volunteers, donations, and opportunities for organisations to get involved. To learn more, please visit their website.

WHAT'S GOING WELL?

Since 2015, Smart Works Greater Manchester has supported over **6,000 women**, and in 2025, **64% of clients secured employment**.

Even more impressively, **100% of participants report feeling significantly more confident** about their chances of interview success.

HOW SMART WORKS GM BENEFITS FROM GMLPN MEMBERSHIP?

"We're really proud to be part of such a strong and growing network. Being a member enables us to build meaningful connections with local organisations and collaborate more effectively to support people across Greater Manchester.

The GMLPN team have been incredibly supportive, involving us in events, facilitating introductions, and creating opportunities for partnership that strengthen our reach and impact."
